ESAME FINALE DI DOTTORATO

Scienze Agrarie, Alimentari e Ambientali

XXXV Ciclo

Mercoledì 14 giugno 2023- Aula magna (Agraria) ore: 9.00-14.00

Candidato	Titolo tesi	SSD
Belleggia Luca	<i>New insights into the microbiota of European typical fermented foods of animal origin</i>	AGR/16 MICROBIOLOGIA AGRARIA
Camponi Lorenzo	<i>C and nutrients storage in long-time managed forest ecosystems subjected to land-use changes</i>	AGR/14 PEDOLOGIA
Chiappini Stefano	<i>Precision agriculture by proximal and remote sensing: from the 3D modelling and tree metrics computation to the analysis of rural landscape</i>	AGR/10 COSTRUZIONI RURALI E TERRITORIO AGROFORESTALE
Dottori Edoardo	<i>Adaptation Strategies to Climate Change in Vineyard: innovation in vine training and pruning system, and cover crops</i>	AGR/03 ARBORICOLTURA GENERALE E COLTIVAZIONI ARBOREE
Fortunato Carlo	<i>Molecular insights into plant proteins involved in NAD biosynthesis and signalling</i>	BIO/10 BIOCHIMICA
Khosravi Arash	<i>Sustainable management of local olive production by using precision farming systems and development of territory</i>	AGR/03 ARBORICOLTURA GENERALE E COLTIVAZIONI ARBOREE
Lanzavecchia Giovanna	<i>The Domestication of plant-plant interactions</i>	AGR/07 GENETICA AGRARIA
Qaderi Rohullah	<i>Factors affecting strawberry quality in fresh and stored fruits</i>	AGR/03 ARBORICOLTURA GENERALE E COLTIVAZIONI ARBOREE
Rocchetti Lorenzo	<i>Chickpea (<i>Cicer arietinum</i> L.) genetic diversity and adaptation to guide crop improvement in the European and Mediterranean environment</i>	AGR/07 GENETICA AGRARIA
Pergolotti Valeria	<i>A new raspberry (<i>Rubus ideaus</i> L.) breeding program for selecting new resilient and high quality cultivars.</i>	AGR/03 ARBORICOLTURA GENERALE E COLTIVAZIONI ARBOREE
