

## Seminari Dottorandi 1° e 2° anno

**27/04/2018 - AULA 140/1 - 14:00 / 18:30**

Lucchetti	Lara	Metodologia di studio fenologico della vegetazione spontanea per la gestione degli ambienti di margine degli agroecosistemi	2° anno
Roncolini	Andrea	Research methods to assess the microbiological aspects of edible insects	2° anno
Capriotti	Luca	Candidate genes and their applications for inducing fungal resistance in <i>Vitis</i> spp	1° anno
Ricci	Angela	Plant defence: RNAi approaches	1° anno

**08/05/2018 - AULA 140/1 - 14:00 / 18:30**

Minnazzato	Gabriele	Methods for the characterization of transcription factors	2° anno
Trozzo	Laura	Soil greenhouse gas (CO <sub>2</sub> , N <sub>2</sub> O, CH <sub>4</sub> ) emissions from alfalfa in rotation with durum wheat, in organic farming system	2° anno
Malandra	Francesco	The landscape ecology approach for the analysis of land use changes in mountain areas	2° anno
Sabbatini	Riccardo	Methods for the study of pro-technological and spoilage yeasts in food industry	2° anno
Baldoni	Nora	The effect of biochar on the different levels of C "protection" not only in the shallow layer but also below	1° anno
Choudhury	Md Abdul Mueed	Evaluation and assessment of the urban green infrastructures and periurban forestry considering the planning and sustainability of a climate smart city through the GIS mapping and remote sensing tools	1° anno

**29/05/2018 - AULA 140/1 - 14:00 / 18:30**

Marcellini	Micol	Maximize strawberry's production with proper irrigation based on plant natural request	2° anno
Meo	Riccardo	Estimating production in organic durum wheat. A multiple imputation approach on yield data	2° anno
Hoseini	Marziyeh	Production of agri-food derived compost, soil and plant responses following its application	1° anno
Serrani	Dominique	Farming system and a possible presence of Terra Preta in Mozambique; how the system works and making it more sustainable	1° anno
Scalise	Amelia	Ornamental plants for food use	1° anno
Dubiwak	Biyensa Gurmessa	Effects of anaerobic digestion of animal waste, biochar and biological remediation on veterinary antibiotics in soil	1° anno
Montecchiari	Silvia	Dinamismi vegetazionali e neo formazioni forestali: il caso della robinia pseudoacacia	1° anno

**05/06/2018 - AULA 140/1 - 14:00 / 18:30**

Rajestary	Razieh	Use of natural compounds for the control of postharvest decay in strawberry	2° anno
Bozkir	Eda	Improving the nutritional and organoleptic quality of green beans	2° anno
Giardinieri	Alessandra	Effects of thermal treatment on nutritional quality of fish	2° anno
Serrallegri	Alessandra	Phloem-feeding insect vectors of plant pathogens in vineyard	1° anno

Bucci	Giorgia	Precision agriculture as a driver for sustainable farming systems: state of art in literature and research	1° anno
Mia	Md Jebu	Low input orchard floor management for sustainable development	1° anno
